

Public consultation: reviewing the European disability strategy 2010-2020

Fields marked with * are mandatory.

Introduction

The European disability strategy 2010-2020 (hereafter the **disability strategy**) is the EU's main policy document in the field of disability. It sets out objectives and actions for implementing disability policy at EU level. The disability strategy aims to promote a barrier-free Europe and is the tool used for implementing the United Nations' Convention on the Rights of Persons with Disabilities (UNCRPD) at EU level.

As the disability strategy will end in 2020, the European Commission is evaluating its implementation. This public consultation aims to collect evidence and views from the broadest possible range of stakeholders in order to assess the strategy's relevance, effectiveness, efficiency, coherence, and EU added value. You are not required to have any previous knowledge of the disability strategy to participate in this consultation.

Standard version and easy-to-read version

The survey has been drafted in the following way to ensure that the widest possible range of stakeholders can understand it and participate. To ensure that persons with intellectual disabilities can participate in the survey, an easy-to-read version is available. Please indicate if you prefer to use the standard version of the

survey, or the easy-to-read version. Once that you have chosen your preferred version we recommend that you keep it throughout the whole survey.

Your view on the impact of the disability strategy

The disability strategy sets out objectives and actions to improve the situation for persons with disabilities. To better achieve its objectives, the disability strategy identifies 8 specific **areas of action**:

Accessibility: ensuring that products, services and buildings are more accessible to persons with disabilities

Participation: improving the participation of persons with disabilities in public and political life

Equality: fighting discrimination based on disability and promoting equal treatment

Employment: enabling persons with disabilities to actively participate in the labour market

Education and training: promoting inclusive education and lifelong learning for pupils and students with disabilities

Social protection: promoting decent living conditions for persons with disabilities

Health: promoting equal access to health services and to health facilities for persons with disabilities

External action: promoting the rights of persons with disabilities also outside of the EU

The next European Disability Strategy should strengthen the EU's commitments to the disability-inclusive, CRPD-compliant implementation of the 2030 Agenda and Agenda for Humanity as well as of other key human rights, development and humanitarian frameworks, and ensure coherence across all the EU's policies and programmes related to external action. Increased coherence between EU and EU State actions, relating to inclusive external action, is also required.
